JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Thursday - 21 May 1970

25X1 1. [] Accompanied [] of OSR, to a briefing 25X1
of Richard Perle, on the staff of the Senate Subcommittee on National
Security and International Operations, on the cost of Soviet weapons programs.
25X1 Mr. Perle asked for the figures on Soviet SS-9 and SS-11 programs which
[] did not have readily available, but said he would get for him.
25X1 He also asked for a number of other figures based on several contingencies
and [] said he would be glad to check on the availability of this
information some of which was out of his field. Perle commented that he
had received a briefing on material contained in a Stanford Research
Institute study which he wished to verify. Later in the day Bruce Clarke
suggested that Perle write his questions out for us and provide us with a 25X1
copy of the SRI study.

25X1 []
25X1 3. [] Scott Cohen, on the staff of Senator
Charles Percy (R., Ill.), called and asked if we would pick up a document
which the Senator wanted sent to us. (This is a graph showing Soviet ICBM
force trends as based on various DOD posture statements through mid-1969.)
Senator Percy has asked if we would update this chart. OSR is taking a
look at it.

25X1 4. [] Talked with Bill Woodruff, Counsel, Senate
Appropriations Committee, about the language of the proposed Cooper/Church
amendments to the Foreign Military Sales Act. Woodruff said he was taking
the position that the Director's authority was broad enough and specific
enough so as not to be affected by these amendments.
